ABSTRACT

Detailed annual information on all support programs administered by the Bureau of Health Manpower (BHM) is provided in this directory, which includes information on all grants and contracts awarded by BHM in fiscal year (FY) 1975. The data reflect both FY 1975 funds awarded through June 30, 1975, as well as some FY 1973 impounded funds which were subsequently released during FY 1975. (BHM supports education and training programs to meet the nation's health manpower requirements in medicine, osteopathic medicine, dentistry, optometry, pharmacy, podiatric medicine, veterinary medicine, nursing, allied health professions, and public health.) The first section of this directory classifies the awards by DHEW (Department of Health, Education, and Welfare). Within each region, the data are reported in sequence alphabetically, by state, city institution, and program code. The second section includes two summary tables which provide data on the number and amount of awards by DHEW region, state, and program. A short description of each program and a table of legislative history on health education are included. (SH)
